

LICENCE TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION OF RISC OS AND ITS DERIVATIVES

This licence agreement ("Licence") is between Castle Technology Limited ("Castle") and any person ("You", "Your") who exercises any of the legal rights over any components of the computer operating system known as RISC OS granted by Castle in this Licence. The phrase "RISC OS" used in this Licence refers to those components of version 5.0 of RISC OS that Castle chooses to release from time to time and any subsequent release of RISC OS which is made generally available by Castle pursuant to this Licence. The phrase "Derivative Work" means any derivative work which is based on, or derived from, RISC OS or any part of RISC OS (whether by modification or translation) and any work subsequently derived from such Derivative Work or any part of it PROVIDED THAT such work is only intended to be used in conjunction with an embodiment (whether physical or emulated) of one or more versions of the ARM processor architecture. By exercising any of the rights granted to You by Castle pursuant to this Licence You indicate Your acceptance of all of the terms and conditions of this Licence which shall therefore be legally binding on You.

1 LICENCE GRANT

- 1.1 Subject to the restrictions set out in the remainder of this Licence Castle hereby grants to You a non-exclusive royalty free worldwide licence to use, copy and distribute the RISC OS source code and object code in any medium PROVIDED THAT you ensure that each copy You distribute incorporates the text of, or an Internet link to, this Licence.
- 1.2 You may modify your copy of RISC OS or any part of it (and any Derivative Work or any part of it) to create a Derivative Work and You may copy and distribute the source code and object code of such Derivative Work in any medium PROVIDED THAT you meet all of the following conditions:
 - 1.2.1 You shall ensure that each Derivative Work You distribute carries a notice stating that it is ultimately derived from RISC OS and the date of Your modifications;
 - 1.2.2 You shall ensure that each Derivative Work You distribute as source code prominently carries the following header text in each individual source code file:

This source code in this file is licensed to You by Castle Technology Limited ("Castle") and its licensors on contractual terms and conditions ("Licence") which

entitle you freely to modify and/or to distribute this source code subject to Your compliance with the terms of the Licence.

This source code has been made available to You without any warranties whatsoever. Consequently, Your use, modification and distribution of this source code is entirely at Your own risk and neither Castle, its licensors nor any other person who has contributed to this source code shall be liable to You for any loss or damage which You may suffer as a result of Your use, modification or distribution of this source code.

Full details of Your rights and obligations are set out in the Licence. You should have received a copy of the Licence with this source code file. If You have not received a copy, the text of the Licence is available online at **www.castle-technology.co.uk/riscosbasellicence.htm**

- 1.2.3 You shall ensure that each Derivative Work distributed by You is distributed and licensed in its entirety at no charge on the terms of this Licence to any third party who is prepared to accept the terms of this Licence. If any part of any Derivative Work distributed by You can reasonably be considered an independent and separate work then this Licence shall not apply to any such part where You distribute such part as an independent and separate work;
- 1.2.4 You undertake, in respect of each Derivative Work that You distribute, to make the whole source code of every individual component of the Derivative Work available for unrestricted access by third parties by including a copy of the source code with Your distribution and/or by uploading the source code to the official RISC OS source code repository at www.riscosopen.org/content/sources
- 1.2.5 You hereby grant to Castle a royalty free worldwide licence (with the right to grant sub-licences) to incorporate into RISC OS or any Derivative Work produced by Castle, the whole or any part of any Derivative Work which You create or distribute pursuant to this Licence. You acknowledge that Castle may make the whole or any part of RISC OS or any Derivative Work produced by Castle available to OEM organisations on commercial terms for incorporation into hardware products intended for sale. You hereby waive any moral rights You may have in any part of any Derivative Work which Castle so incorporates into RISC OS or any Derivative Work produced by Castle. Nothing in this Clause 1.2.5 shall oblige Castle to incorporate into RISC OS or any Derivative Work produced by Castle any part of any Derivative Work which You create or distribute pursuant to this Licence.

2 LICENCE RESTRICTIONS

- 2.1 You may not copy, modify, sublicense or distribute RISC OS or any Derivative Work except as expressly provided under this Licence. Any attempt by You otherwise to copy, modify, sublicense or distribute RISC OS or any Derivative Work shall be void and shall lead to the automatic termination of Your rights under this Licence but such termination shall not affect the rights of any person to whom You have distributed RISC OS or any Derivative Work provided they continue to comply with the terms and conditions of this Licence.
- 2.2 You may not impose on any third party to whom You have distributed copies of RISC OS or any Derivative Work any licence restrictions other than those set out in this Licence.
- 2.3 If, as a consequence of any court judgment, allegation of infringement of any proprietary right or any other reason You are unable to comply fully with the terms and conditions of this Licence then You shall refrain from distributing RISC OS or such Derivative Works (as appropriate) for the duration of such non-compliance.
- 2.4 This Licence is not an OEM licence. Consequently, You may not incorporate or embed RISC OS or any Derivative Work or any part of them in any hardware product which is intended for commercial sale, nor may You distribute, sell, supply or otherwise dispose of any such hardware product unless You have obtained the prior written consent of Castle. Castle is generally prepared to grant OEM licences on commercial terms to any person who wishes to incorporate or embed RISC OS or any Derivative Work or any part of them into a hardware product and/or to sell, supply or otherwise dispose of such hardware products. Details of Castle's standard OEM licensing terms are available from Castle's website at www.castle-technology.co.uk/riscosoemlicence.htm or by email from oem.enquiries@castle-technology.co.uk

3 NO WARRANTY

- 3.1 RISC OS AND ALL DERIVATIVE WORKS ARE SUPPLIED "AS IS" WITHOUT ANY WARRANTIES OF ANY KIND WHETHER EXPRESS OR IMPLIED INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTIES OR CONDITIONS THAT RISC OS AND/OR ANY DERIVATIVE WORK IS ERROR

FREE, FIT FOR ANY PARTICULAR PURPOSE OR THAT ITS USE, MODIFICATION OR DISTRIBUTION SHALL NOT LEAD TO INFRINGEMENT OF ANY THIRD PARTY PROPRIETARY RIGHTS. ALL IMPLIED WARRANTIES AND CONDITIONS ARE EXCLUDED TO THE EXTENT PERMITTED BY LAW.

4 DISCLAIMER OF LIABILITY

4.1 IN NO EVENT SHALL CASTLE OR ANY PERSON WHO HAS MODIFIED AND/OR DISTRIBUTED THE WHOLE OR ANY PART OF RISC OS OR ANY DERIVATIVE WORK IN ACCORDANCE WITH THIS LICENCE BE LIABLE TO YOU FOR ANY LOSS OR DAMAGE WHATSOEVER ARISING OUT OF YOUR USE, MODIFICATION OR DISTRIBUTION OR YOUR INABILITY TO USE, MODIFY OR DISTRIBUTE RISC OS OR ANY DERIVATIVE WORK OR YOUR EXERCISE OF ANY OF THE RIGHTS GRANTED UNDER THIS LICENCE (INCLUDING BUT NOT LIMITED TO LOSS OF OR DAMAGE TO YOUR OR ANY THIRD PARTY'S DATA CAUSED BY ANY DEFECT IN RISC OS OR ANY DERIVATIVE WORK OR ANY INCOMPATIBILITY BETWEEN RISC OS OR ANY DERIVATIVE WORK AND ANY OTHER SOFTWARE). ALL SUCH LIABILITIES ARE EXCLUDED TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW.
